

RS-PT 1000 – Passive room temperature sensor

RS-PT 1000 is a passive room temperature sensor for measuring indoor room temperature. The sensor has a modern plastic housing with a smooth snap-on cover. The sensor is suitable for surface installation and on a flush mounting box.

Temperature is detected by a Pt1000 element with a nominal resistance of 1000 Ω at 0 °C.

You can do the wiring through the back of the housing as flush mounting or from top or bottom of the housing in case of surface mounting.
