Approvals

EHEDG, Hygienic Peek Connect G 1/2" (HPC)

Certificate Number 21/2017

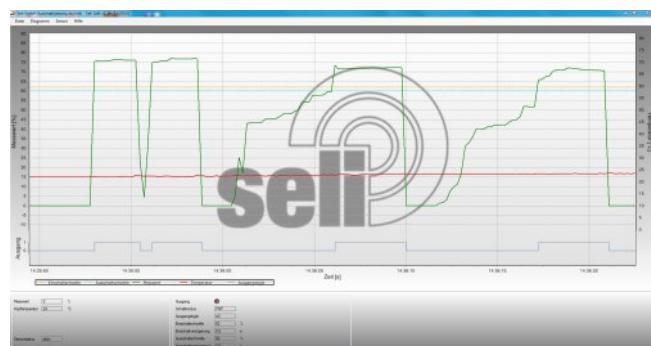

Certificate only valid in combination with an EHEDG process tip (HPC tip) and process adapter (HPC sleeve). Permissible process adapters see data sheet "Process adaptation"

ATTENTION!

At lower deviation of dew points water condensation is possible, that can destroy the sensor. At stress with change of temperatures, e. G. a cold water jet on the hot sensor, it can come to absorption of fluids in to the sensor. (Requirements cf. DIN EN 60068-2-14)

The tightness classification after IP68 does not mean that these parts are suitable for applications with lower deviation of dew point or temperature shock. (DIN 60068-2-14)

Parameterization (optional accessories)

For parameterization, both the PC USB interface STPA-M12 and the programming adapter ST-M12-Y-AD is required.

ST-PA-M12

PC-USB-Interface incl. the Software for readout and parameterize.

ST-M12-Y-AD

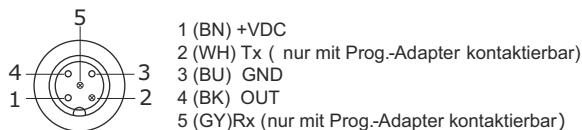

Notice

Suitable for applications with predominantly aqueous media, mild, beer, Cip - liquids. Very adhesive media can lead incorrect measurements.

Relevant welding sleeves on request.

The sealing of the sensor must have an intact electrical connection of the G1/2" thread and the container wall. Do not use any sealing strips
